Prints can be made on conventional photographic paper to give you the best possible results from your image files. We are able to print from most media types, and via e-mail.

Both **Gloss** and **Lustre** finish are available.

	1-4	5-9	10-24	25-49	50-99	100+

18x12	8.04	7.40	5.75	62.70	92.00	2.30

The above quantities are for the total number of prints from your files and NOT number of prints per file. If both Gloss and Lustre are chosen in same size, this counts as TWO different quantities. Prints will be made from your files **WITHOUT** colour and density corrections.

All files must be supplied correctly sized and in .jpg format. If supplying on a CD/DVD please put each different size in separate folders using the size as the folder name.

It is essential that your monitor is correctly calibrated so that what you see is as close as possible to what you get as a print. We are able to provide guidance and a colour profile for our printer so that you get the best results.

Prices effective 04.01.2011
(including VAT @ 20%)
